

THERMAL INSULATION JACKET CIVIL DEFENCE

TECHNICAL DATASHEET

The thermal insulation jacket is best compatible with the rain jacket VE023S19 (Men's) and VE023S20 (Women's), or it can be worn as a stand-alone thermal jacket. It is designed to withstand very low temperatures, due to integration of advanced isolating material, which is a combination of Polyamide, Polyester filling and Aluminium Polypropylene under layer.

PRODUCT CODE

- **Men's:** VLVE023S19VAR2
